Disinfectant Applications, Features, and Organisms Killed

Product	Breeze	Porc & Bowl	Pretty Potty	Shower Patrol	Clear Lemon	Clear Mint	Clear Pine	Pine II	Neutracide 64	Omni Q	Multi Q	CW #3	CW #4	CW #9	CW #16	Clear Lemon Plus	Combo Plus	Ocide Plus
Color Code:	Restroom Disinfectants			General Disinfectants				Hospital Use Disinfectants							Aerosol Disinfectants			
Organisms Killed																		
SARS Associated Coronavirus																		
Serratia marcescens																		
Shigella dysenteriae																		
Shigella flexneri																		
Shigella sonnei																		
Staphylococcus aureus																		
Staphylococcus epidermidis																		
Streptococcus faecalis																		
Streptococcus hemolyticus																		
Streptococcus pyogenes																		
Transmissible Gastroenteritis Virus(TGE)																		
Trichophyton mentagrophytes																		
Tuberculosis																		
Vaccinia virus																		
Vancomycin Intermediate Resistant (VISA)																		
Vancomycin Resistant Enterococcus faecalis (VRE)																		
Xanthamonas maltophilia																		
Yersinia enterocolitica																		

- Note 1 Clear Lemon, Clear Mint and Clear Pine - To kill HIV-1 and Pseudomonas Aeruginosa, the use dilution is 4 ounces per gallon. For all other organisms and applications, 2 ounces per gallon.
- Note 2 When diluted 1:43. Also, when packed in gallon or larger containers.
- Note 3 When packaged in retail or quart pack.
- Note 4 *EPA believes, based on available scientific information, that currently registered influenza A products will be effective against the 2009-H1N1 flu strain.
- Note 5 also called H1N1 or Swine flu

This chart is designed to help you make calls with greater depth than ever before. You will notice that we have not included the usual list of facilities where this product group may be sold. That list would be extremely limiting in its scope because every account you call on and every business you drive by have a need for one or more of these items. Included, however, are categorical applications, surfaces, and items listed on the respective product labels that may be cleaned, disinfected, deodorized, or sanitized.
