

# Metal Polish

## AQUA STEEL STAINLESS STEEL CLEANER

Use this product to clean, polish and protect the surface of stainless steel and other metals. The water based formula removes oily residues, leaves no build-ups and will not powder or cake in crevices. This product returns the sheen to polished metal surfaces without the use of abrasives, silicones or acids. The mild fragrance disappears after polishing. The water based formula is ideal for use in food production, preparation, service and seating areas.
